

Snell & Wilmer

News Release

SNELL & WILMER NAMED A 2021 TOP PATENT LAW FIRM IN U.S. BY JURISTAT

PHOENIX (February 18, 2022) – Snell & Wilmer is pleased to announce that the firm has been ranked as a 2021 Top Patent Law Firm by [Juristat](#), a robust patent analytics platform, for the third consecutive year.

“These rankings represent the best of the best, and Snell & Wilmer is one of those firms. Companies looking for both experience and expertise should rely on performance data like this to drive their choice in legal partner,” said Danielle Hohmeier, director of marketing at Juristat.

The 110 firms on Juristat’s rankings earned their spot through exceptional performance in three key areas—number of applications filed, allowance rate, and average number of office actions before allowance. This analysis was conducted in December 2021, and analyzed public applications disposed (or in the case of the first metric, applications filed) between January 1, 2019, and December 31, 2019. To qualify for inclusion, a firm must have filed a minimum of 100 applications in the tech center during that time period, ensuring the firm has extensive experience in that technology center and provides an appropriate-sized dataset to evaluate performance metrics.

Snell & Wilmer’s intellectual property attorneys regularly assist clients with their patent preparation and patent prosecution needs. The firm’s patent attorneys focus on understanding our clients’ business including an in-depth understanding of their products and services. They work closely with clients to develop strong patent applications and effective patent strategies, and to help them create and manage sophisticated and defensible patent portfolios that support their primary business objectives. They do this domestically within the United States, and have deep and trusted relationships with law firms and attorneys throughout the world that they regularly work with to extend their client’s patent protection internationally.
